Music SA aims to ensure that all processes associated with training program delivery and assessment take into consideration the special needs and characteristics of individual learners, in particularly learners with a disability.

To meet the specific needs of learners, Trainers/Assessors may need to make 'reasonable adjustments' to delivery programs and assessment tasks.

If you believe that you may require 'reasonable adjustments' to be made to training and/or assessment activities because of a disability, or other special need/characteristic, please inform your Trainer/Assessor at the time of (or preferably prior to) training program commencement, to allow sufficient time for 'reasonable adjustments' where possible to be made.

Music SA aims to ensure that all learners have every opportunity to be successful in their studies. To this end, a range of educational and personnel support services are available to all learners.
